ADVERTISING RATES

Legal advertisements, 15 cents per line for first insertion, 12 cents per line for each subsequent insertion.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50 cents for first insertion, 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, May 3, 1928

NOTES AND COMMENT.

In the last week two sets of coupon tickets, one for charitable purposes at Edmonton, and the other with similar objects, approximately, at Fernie, B.C., have been received at this office. There may be a laudable idea behind these projects, but the fact that a prize is necessary to secure the contributions asked for would seem to indicate that the idea of these enlarged raffles is to secure the money that was found so easy for football and baseball gambling devices, which reached bad odor from a legal point of view. There is no idea of belittling the success attained in this kind of petty gambling, nor the fact that it is popular with a large number of citizens. A local surfeit of this kind of thing which reached the objective in cash receipts makes this impossible. It may be of no harm, however, to say that the achievements in this direction would hardly justify the feeling engendered in many minds that this is a cheap and discreditable way of boosting charitable or other propositions. To sell a Ford car in this way for \$2,000, or a bungalow for \$10,000, may be good business on the part of the institution with the matter in charge, but does it tend to make the people give a better response to a demand from the various institutions in the country that look for outside help but offer no gambling inducement to contribute? There can be doubt as to the ultimate failure of the gambling devices, no matter how well camouflaged.

Will Boost
Co-operation

Alberta farmers who attend the Institute of Co-operation to be held either at Edmonton or Olds during the last week of June, will have the opportunity of hearing addresses from a number of speakers who are acknowledged to be authorities on various branches of co-operation in Canada and the United States. The committee in charge of arrangements for the Institute which is being organized by the Department of Agriculture with a portion of Alberta's share of the Wheat Board Surplus Fund announces that acceptances have been received from the following co-operative experts who have been invited to address the gathering: Prof. C. R. Fay, of the Dept. of Economics, University of Toronto; C. G. Randall, agricultural economist for the bureau of co-operative marketing, U.S. Dept. of Agriculture; John Brandt, president of the Land of Lakes Creamery, Hutchinson, Minn., the largest co-operative creamery organization on the continent; Prof. H. G. Erdman of the Dept. of Economics, University of California; R. W. Murchie, head of the Department of Rural Economics, Manitoba Agricultural College; Robin Hood, editor of the Co-operative Marketing Journal, Memphis, Tenn., and W. M. Drummond, who is returning to Alberta from Harvard University.

In addition to the above speakers a number of prominent men in the co-

operative movement in western Canada will be heard. The program being arranged for the Institute will allow those in attendance to pay special attention to any of the phases of co-operation in which they are interested.

Recommend Pasture
For Hog Raising

Pastures are essential for economic pork production, especially for growing pigs and brood sows. Pastures provide an abundance of cheap feed, and considerably reduce the cost of pork production. The choice of pasture, however, largely depends on soil and climatic conditions.

At Indian Head, such pasture crops as rape, oats, barley, rye, millet, and various mixtures have been under test for a number of years. Variety of pastures is essential in order to provide an abundance of succulent feed throughout the season. Rape has proved to be one of the best pastures under test from the standpoint of economical gains and the provision of succulent feed throughout the late summer and fall months. Rape sown in June will be ready in August or September and may be used to finish the early spring pigs or give the fall litters a fair start before the cold weather sets in. A good stand of rape is capable of carrying from fifteen to twenty pigs per acre.

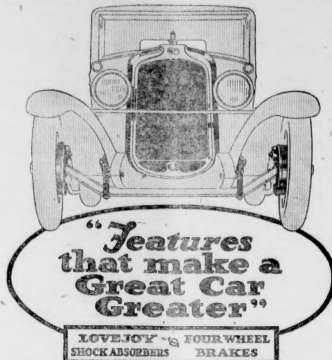

The coarse grains, such as oats,

barley, etc., when sown alone, or in combination, supply an abundance of green succulent pasture. To obtain the best results with these mixtures, the pigs should be turned on when the growth is from six to eight inches high.

Fall rye has also given good results as hog pasture. Fall rye, when sown in combination with oats, provides succulent pasture throughout the entire season. As the oat

pasture becomes exhausted, the fall rye will gradually take its place and provide green succulent feed all fall. Fall rye sown late in August and early in September will supply green pasture for the early spring litters. Suitable pastures should be available for the growing pigs, brood sows and stock boars.

Dominion Experimental Farm,
Indian Head, Sask.

LAST year a great car, now a host of added features make Pontiac Six greater than ever. To Pontiac's proven dependability have been added the enthralling beauty of new Fisher bodies, and new high radiator; the new safety and security of positive four-wheel brakes; the new ease and comfort of Lovejoy Shock Absorbers; a new pride of ownership in a car that is essentially modern, up-to-date.

Ask about the amazingly low prices of the New Series Pontiac Six.

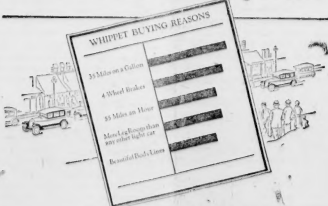

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

Why Thousands are buying Whippets

This Chart shows graphically why people buy the Whippet. Based on reports from thousands of owners. Reasons shown in relative importance.

52% of owners bought the Whippet because of its economy of operation. No other car offers the same economy of operation. Second 30% of owners bought the Whippet because of its 30 miles an hour speed. Third 30% of owners bought the Whippet because of its 4 wheel brakes and four gravity gears. These features give the Whippet the most safety and security of any other light car.

14% of owners commented on the extra leg room they enjoy in the Whippet. This was only possible by an extensive development of the dash and floor. In the Whippet complete leg room.

The Overland Whippet now in the catalogue is the best car money can buy. It is an exclusive body type.

Local and General

L. J. Adams has joined the ranks of modern car owners by the purchase of a Whippet six sedan, which is now being admired by his friends.

Improvements to the Ford Garage have reached a stage where appearances are decidedly satisfactory. The original design, however, is far from completed.

A rapidly diminishing commodity is George Dupue's row of tractors. This was the most convincing exhibition of the change to power farming from the old system which had even been on exhibition here. Don't think for a minute that other dealers were not selling tractors. George's exhibit of McCormick-Deering was so emphatic as to deserve more than passing comment.

Geo. Orr has a new Olds automobile, which is claimed by A. Kramer to be the easiest riding vehicle ever designed by General Motors or anybody else. Perhaps George will come around and convince us that A. K. is correct.

Seeding has made very rapid progress during the past week. In fact, it has been a matter of surprise that with threshing in progress it was possible to proceed with the regular spring work so successfully. Men have been scarce, and only the adoption of such a large amount of power equipment could have saved the situation, as naturally the men were more inclined to accept satisfactory day wages than go on the farms by the month. Reports would indicate that more than the usual progress has been made since the ground was fit for work.

The Dept. of Education has just issued a manual in Civics intended for

use in the High School grades. This little booklet of approximately 70 pages contains material with which every citizen should be familiar. It was written by Professor Burt of the University of Alberta, admittedly an authority on this subject. While the treatment follows in a general way the topics included in the civics section of the third year History course, yet nothing has been included that is not of genuine interest to anyone who desires a brief statement, not only of our present practice in government, but the foundations on which it rests. This is the first Canadian publication dealing with Civics on the high school level and it will without doubt make a suitable text for discussion clubs, U.F.A., U.F.W.A., and Women's Institute meetings, as well as a valuable handbook for private reading. It is published by the School Book Branch of the Dept. of Education and may be had direct from this branch for 30c postpaid, or from local dealers.

WILLYS-
KNIGHT
SixesNow!
ANOTHER
EXCLUSIVE
FEATURE

The silent Willys-Knight sleeve-valve engine plus a Belflex silenced chassis now make a completely silent car.

From the first turn of its sleeve-valve engine, the most powerful, most highly efficient and quietest in operation of all cars of its type or class—the Willys-Knight Six—to a mileage point still undetermined—gains in power, gains in efficiency, gains in smoothness and silence with every mile.

And now—Belflex Shackles—still another new and exclusive Willys-Knight feature—a tremendous engineering advance over the unsatisfactory and noisy metal shackles of other cars. Belflex guards against all chassis rattles and squeaks. It deadens road vibration, eliminates all need for shackle lubrication.

Belflex provides that the spring parts of the car are insulated from the unsprung parts with a noiseless flexible fabric—shock-absorbing rubberized—thereby affording permanent chassis silence and diminishing wear at every point of the car.

Examine the new "37" Willys-Knight Six or the Great Six, yourself. Willys-Knight Engineering Leadership was never more definitely emphasized than in the extraordinary beauty, luxury and performance.

Willys-Knight Great Six prices from \$2378 to \$3000. The new "37" Willys-Knight Six, companion car to the Willys-Knight Great Six, from \$1510 to \$1940. Prices f.a.b. factory. Taxes extra.

WORLD HAPPENINGS BRIEFLY TOLD

Henry James Cumble, pioneer railway builder and explorer, died at his home in Vancouver, at the age of sixty-one, after a brief illness with pneumonia.

Coal production in Canada during March was slightly less than in February. Alberta produced 1,067 tons. British Columbia's output was 221,832 tons.

Capt. George H. Wilkins, scarcely landed from his great feat of flying across the top of the world by aeroplane, already is planning a new adventure—this time over the Antarctic at the other end of the world.

The government is of the opinion that women should have the right to sit in the Senate and means will be devised to amend the British North America Act to permit appointment of women to the upper chamber.

The resignation of Henry Dwyton as member for West Chester was announced in the House of Commons. He has accepted the appointment of chairman of the Ontario Jail Board.

A notice of motion for the laying of correspondence between Canada and Great Britain on the subject of titles for Canadians has been given by C. H. Cahan, Conservative, St. Lawrence St., George. The motion also calls for a list of foreign honours and decorations conferred on Canadians since 1919.

Dr. Henry M. Tye, president of the University of Alberta since its organization, 20 years ago, is tendering his resignation, to take effect at the end of the current session. Next month, in order that he may accept the permanent chairmanship of the National Council of Scientific Research, with headquarters probably at Ottawa.

To Beautify Ottawa

Proposed Outlay Of Three Million Dollars To Burnish Up Federal Capital.

Plans for the federal district commission for the beautification of the city of Ottawa were laid before the House of Commons by Premier McKenzie King.

The bill, a Government measure, proposes:

1.—To reduce from \$250,000 to \$200,000 the annual amount credited to the Ottawa Federal district commission.

2.—A further expenditure of \$3,000,000 for expropriations of the Russell House property.

The plan—sketch maps were distributed among members that they might better follow the scheme—was to create a large park in the centre of Ottawa, opening up the approaches to Parliament Hill.

A feature of the park scheme is a large circular space, after the style of Piccadilly Circus in London, around which one-way traffic will move. The centre of the space will be the heart of the capital. There, in all probability, the national war memorial will be erected.

"A country is known among the citizens of the world by its capital," said Mr. King. The capital of Canada, he said, should be the heart of the British Empire. The various provincial parliaments were a credit to their provinces, and it should be remembered, he added, that Ottawa was the federal capital for all the provinces.

Genius At Mental Arithmetic

Scientists at Montreal are interested in the case of a woman in a Welsh hospital who can neither read nor write but is a genius at mental arithmetic. She can solve mathematical problems in 30 seconds, and is said to never give an incorrect result. She also can recall a large number of historical dates at will.

The more people talk back the better the auctioneer likes it.

A girl often discovers the man after her own heart doesn't want it.

Small Town Papers

BY FRANK PARKER STOCKBRIDGE
Reprinted by special permission from
the Winnipeg Free Press, Copyright 1924, by
the Winnipeg Free Press, Ltd.

(Continued.)
The total circulation of these 11-200 country weeklies is about 1,000,000, an average of a little under 1,000 copies each. That doesn't sound like much to a New Yorker, accustomed to circulation figures in the hundreds of thousands. But it represents only about 600 papers in the United States, which have in many of 10-200 circulation, and the whole list of daily circulates only about 35,000,000.

"It doesn't take a large circulation to make a country weekly profitable. Bert Mills and some of the rest of you chaps here are the magnates of the business. Remember that an income, net, of \$3,000 a year in a village of 500 population is a whole lot of money; it's the equal of at least \$10,000 a year in Chicago. New York, in what it will enable a man to do for himself and his family. It's a whole lot more than the average man in the same sized town would make. I should say, as anybody else in town is likely to make, including the banker and the general merchant. And I don't think I'm far from the mark. Put \$3,000 a year in your pocket, with the minimum net profit for country weeklies with his average closer to \$3,000. If I'm wrong somebody correct me."

"I'm just right to me," said an Iowa editor who had been doing nothing but listen. "I personally know at least fifteen country papers in Iowa who make more than \$5,000 a year. I know one that makes \$10,000 a year. I know one that makes \$15,000 a year. I know one that makes \$20,000 a year. I know one that makes \$25,000 a year. I know one that makes \$30,000 a year. CHAMPION CHATTER

VOL. I

Thursday, May 2, 1928

No. 12

Published in the interests of the People of Champion and Farmers of this vicinity.
GEORGE L. DUPUE, Editor.

EDITORIAL

A young man from Minnesota is claiming the championship of something or other because he ate 33 spring onions at one sitting. As a first prize we would suggest that some kind druggist present him with a bottle of Ictericine. Phoo!

We have delivered Mc-De's tractors this week to J. Doyle, W. E. Watkins and Steve Fath. Needless to say they are all using either Veedol or Wm. Penn oils to guarantee the best results.

FOOL PROOF

Spring is the season when the sap in the timber keeps the sap in the fiver from starting forest fires.

Lee Taylor has taken out a Mc-De's 15-30 "Good Equipment Makes a Good Farmer Better"

harrow and 24 run double disc drill. An acre every 15 minutes for Lee.

A woman may diet at home, but she never diets at hotels where they charge sixty cents for a dish of ice cream.

Among the new tractor plow owners this week we find J. O. Bell and S. Fath. Here's hoping they get things upside down.

Poor Gladys! She thought the doctor was trying to flirt with her when he told her she had acute appendicitis.

A very good customer of ours, A. Fleetwood, has contributed the following, so if I don't meet with your approval just give it a cooling down. "When I've come down here to stay to see how the people were dressed today."

"I said Adam to Eve: 'My dear, my dear, there's little change since we were here.'"

Scotch Generosity
 Now Jeanie, here's your marriage dot; it's liberal as you see; but before you spend the dollar girl, you'd better hide a wee.

You should come around and look over our new Mc-De's Rotary Road Weeder. Its a "beater."

No, it can never do. If we all were to love our neighbors as we love ourselves the flat-tery would be sickening and there'd be nobody to blame anything on.

John Othelmer, Ed. Weiss, Chas. Anderson, L. Warren and John Klein are this week's deliveries on 11 ft. disc harrows.

The best town you come town.

W. C. HOSKINS

Local and General

Arber Day, May 7th.

Burn—To Mr. and Mrs. A. Low, Carmanagay, a son.

T. Roebuck made a business trip to Lethbridge during the week.

H. E. Gill shipped three cars of hogs to Calgary on Thursday some 250 hogs being loaded.

Mrs. E. Williamson left for Junction City, Oregon, Monday morning, where her mother, Mrs. A. E. Thomas, died on Saturday.

An executive meeting of the P.T.A. will be held in the public school on Saturday afternoon at 3:30 to plan for the next meeting.

K. R. McLean R.O. Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly professional visit to Champion, at the Drug Store, Friday, June 1st.

B. M. Roberts unloaded a car of 1928 Pontiacs this week. Judging from their snappy appearance this car should take wonderfully well with the public as there is a decided improvement over previous models.

The Women's Institute will meet at the home of Mrs. D. Watkins on Tuesday, May 8th.

In future Dr. Freeze will be in Carmanagay on Tuesday, and on Friday afternoons from 1:30 to 1:30.

The Ladies' Aid will meet at the home of Mrs. J. N. Beaubien on Thursday, May 10th. The members are asked to take apron patterns so the committee will be able to have an assortment and get the aprons out. Everybody welcome.

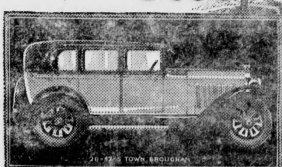

Lost—On Monday night in Champion \$35 made up by one twenty, a ten and a five. \$10 reward upon returning to Louis Voronocko, or at the Chronicle office.

COAL!

Lump Coal \$1.00 per ton at mine
 Nut Coal at mine \$1.50
